

Students of Art & Design Department University of Jhang Attended Conference and Participated in All Pakistan Textiles Sustainability Competition

On December 3, 2024, a delegation of 20 students from the Art and Design Department of the University of Jhang proudly participated in the prestigious All Pakistan Textiles Sustainability Competition, held at the University of Engineering and Technology (UET), Faisalabad. With the unwavering support and encouragement of Vice Chancellor Prof. Dr. Faheem Aftab, the students showcased innovative projects focused on "Eco-Friendly Textiles from Waste Materials," utilizing resources such as plants and old clothing. The event featured prominent keynote speakers from the textile industry, academia, and government institutions, providing an invaluable platform for students to gain insights into sustainable textiles, circular economy, and cutting-edge technologies. Through this participation the University of Jhang team earned high praise from the judges for their creativity and impactful ideas, cementing their presence among top universities across Pakistan.
