VICE CHANCELLOR'S MESSAGE

It is a source of sheer contentment to connect with you through our quarterly published newsletter encompassing a brief account of activities of university. The mission and motive of this university is to maintain higher level in quality education even in unfavorable times as Covid-19. So, for health concerns of students, and university employees, we decided to split our classes in groups for five weeks that was followed by three weeks online classes. Furthermore, several departments designed their new curriculum and conducted Board of Studies meetings for the development and revision of curriculum.

Apart from accomplishing dynamic academic excellence, we also focus on attaining high morale in our national educational corridor to provide best opportunities to the students and employees of the university. In this regard, memorandums of understanding (MOUs) was signed between University of Jhang and E-Rozgar Program, University of Jhang and Ghazi University, Dera Ghazi Khan that would open new avenues for students as well as faculty members.

Our students are the greatest treasure we possess; in order to facilitate them, we conducted interviews of Ehsaas Scholarship for their financial wellbeing. This fair process could only be possible due to the efforts of Scholarship Committee's endeavor. I feel pleasure to share that UOJ students will be availing 550 scholarships including 492 Ehsaas Scholarships, PEEF, MORA, Bait-ul-Maal and Rehmat-ul-Alameen Scholarships.

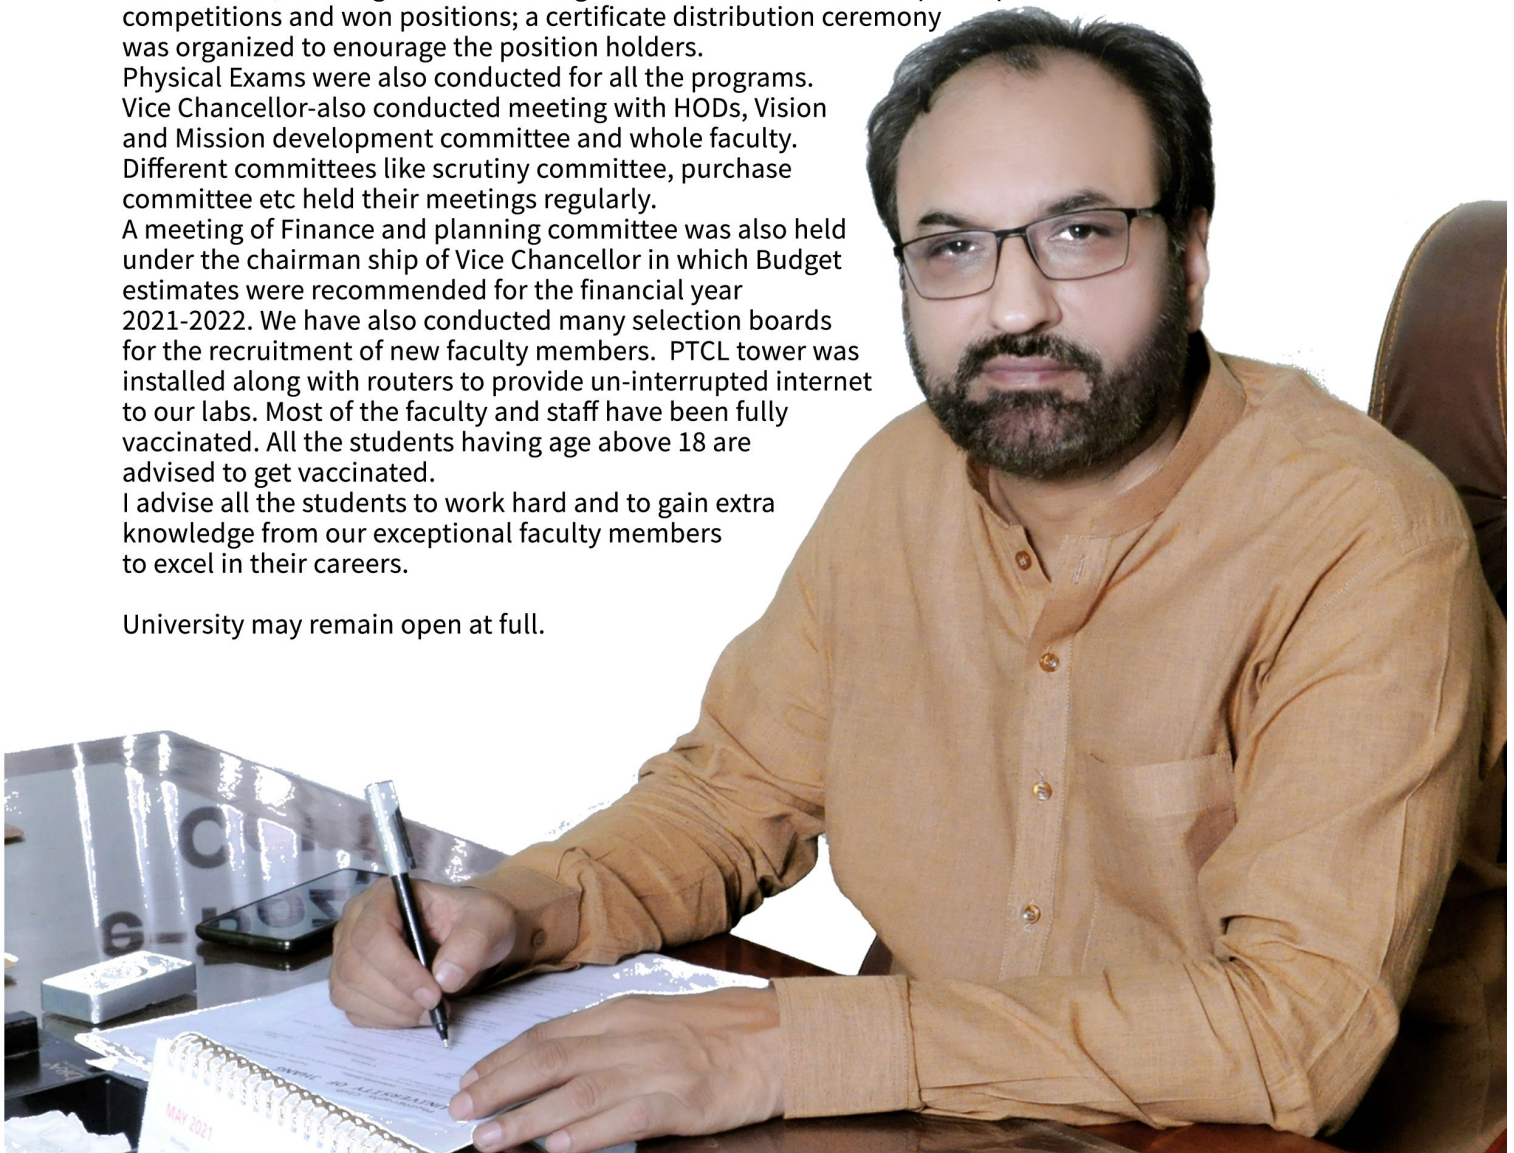

The intensity of the hard work of our faculty is measured by the achievement of our final year BBA students who got employment as Management Trainee Officer. We spent the period of Covid-19 with heavy heart as there were less opportunities for interaction with students. As the dark time is almost over, we organized a sitting with the students who participated in Divisional level competitions and won positions; a certificate distribution ceremony was organized to encourage the position holders.

Physical Exams were also conducted for all the programs. Vice Chancellor also conducted meeting with HODs, Vision and Mission development committee and whole faculty. Different committees like scrutiny committee, purchase committee etc held their meetings regularly.

A meeting of Finance and planning committee was also held under the chairman ship of Vice Chancellor in which Budget estimates were recommended for the financial year 2021-2022. We have also conducted many selection boards for the recruitment of new faculty members. PTCL tower was installed along with routers to provide un-interrupted internet to our labs. Most of the faculty and staff have been fully vaccinated. All the students having age above 18 are advised to get vaccinated.

I advise all the students to work hard and to gain extra knowledge from our exceptional faculty members to excel in their careers.

University may remain open at full.
