BLACK DAY speech competi- tion

SHEHZIL ARFA

The inception of Pakistan in 1947 was not without complications, conflicts, and historical divisions of the land of Kashmir. Since then, Kashmir has been one of the conflicts between India and Pakistan. The day India illegally occupied Jammu & Kashmir back on 27 October, 1947, and since then Pakistan observes a black day to mark the illegal occupation of the green, luscious valley of Kashmir and the atrocities committed by the Indian army against the peace-wishing people of the valley.

For more than two years now, Kashmiris have been prisoners in their own homes, aliens in their own land, and unable to walk freely in their own streets. Over 900,000 Indian occupation forces, holding 8 million Kashmiris, have turned the occupied territory into the world's largest open prison. India's inhuman military siege, continued blockade, continuing torture and brutal repression and attempts to change the demographic structure of the occupied territory with Hindu majority. The international media and human rights organizations continue to document the tragedy of Kashmir as it goes on unfolding.

To show solidarity with our Kashmiri brothers and sisters, University of Jhang arranged an event consisting of debates to highlight the issue. On the 28th of October, the event started with the name of Allah, the most beneficent and merciful, after which the speech competition took place. With deep regard and enthusiasm, our students gave words to the human rights violation issue in Kashmir. This was a very interesting event as this gave students a highly informative insight on crimes of human rights violations committed against the Kashmiris from the last 7 decades. At the end of the event, all students were highly commended for their contribution and winners were presented with certificates.

Seminar WORLD POLIO DAY

Ayna Ramzan

Polio, an infectious disease caused by a virus that lives in the throat and intestinal tract, was once the leading cause of disability in the U.S. Since the introduction of the polio vaccine in 1995 the disease has been eradicated in the U.S. But this disease is still common in some developing countries like Afghanistan and Pakistan. In spite of all the efforts done by the Government of Pakistan, Pakistan is still suffering with this infectious disease. Due to the lack of awareness and education among the masses, the efforts and investment of the Government of Pakistan to combat the issue hasn't been successful. University of Jhang took the initiative to spread awareness regarding polio by educating its students. A seminar on World Polio Day was conducted in the University of Jhang on October 20, 2021. Mr. Abdul Rahim Cheema, Divisional Communication Officer was the guest speaker from the polio eradication center. He informed, Polio is a crippling and potentially fatal infectious disease. There is no cure, but there are safe and effective vaccines. The strategy to eradicate polio is therefore based on preventing infection by immunizing every child until transmission stops and the world is polio-free.

In the Memory of National Heroes:

MUHAMMAD ALI JINNAH & SIR SYED AHMED KHAN

SHEHZIL ARFA

23rd of December is a very important day for our nation as it is the birth anniversary of Quaid-e-Azam Muhammad Ali Jinnah. In order to commemorate his personality as a human being and his struggle for his people for a separate nation, along the historic importance of Sir Syed Ahmad Khan, University of Jhang celebrated Jinnah day in "remembrance of Muhammad Ali Jinnah and Sir Syed Ahmad Khan" on the 23rd of December, 2021 by inviting figures of eminence as guest speakers. Among the speakers were renowned researchers, writers, teachers and great thinkers. Dr. Shahid Naseem gave an uplifting speech on the leaders of the subcontinent and how knowledge and wisdom has helped Muslims to become great leaders.

After which Dr. Turab Al-Hassan (Assistant Professor, department of History and socialization studies, Bahauddin Zakria University) assured that societies that continue to remember their history are more successful than societies who forget their roots. That is why the Youth of today must learn about the hardships and efforts put in by the notable leaders; Sir Syed Ahmad Khan and Muhammad Ali Jinnah.

Dr. Abdul Qadir Mushtaq was up next, who in his words reiterated the fact that education must be given first priority to make as many charismatic leaders from our fresh graduates. He, also, revealed to the crowd about Quaid-e-Azam's tolerant nature and quoted one of Quaid-e-Azam's saying:

You are free; you are free to go to your temples. You are free to go to your mosques or to any other places of worship in this State of Pakistan. You may belong to any religion, caste or creed—that has nothing to do with the business of the state." All speakers encouraged students to be more altruistic and aim to be public servants working for public welfare.

Our last esteemed speaker was the great grandson of Sir Syed Ahmad Khan: Syed Mahmood Asadullah who was invited to describe the efforts of Muslim leaders of the subcontinent as a blessing of Allah. It was Quaid-e-Azam's diligence and steadfastness in fighting for the formation of Pakistan. He further urged us to follow notable Muslim leaders and learn from their personalities. He also appreciated the religious struggle of Sir Syed Ahmad Khan and called him a true lover of the Prophet. Adding to that he enlightened the audience by reminding them to progress in the domains of research, science, development and philosophy.

The event concluded with the Vice Chancellor, taking the stage to thank the guests for their time and impressive talk. The event ended with the Vice Chancellor presenting honorary shields to the guests.
